

Routledge Handbook of Historical International Relations: A Comprehensive Review

Routledge Handbook of Historical International Relations

★★★★★ 5 out of 5

Language : English

File size : 27084 KB

Print length : 622 pages

The Routledge Handbook of Historical International Relations is a comprehensive overview of the field of historical international relations, covering a wide range of topics from the ancient world to the present day. The handbook is divided into six parts, each of which covers a different aspect of the field: theory, methods, historiography, regions, themes, and key concepts. The handbook is a valuable resource for students and scholars of international relations, as well as for anyone interested in the history of world affairs.

Part 1: Theory

The first part of the handbook provides an overview of the major theoretical approaches to the study of historical international relations. These approaches include realism, liberalism, constructivism, and Marxism. The chapter authors provide a clear and concise explanation of each approach, as well as its strengths and weaknesses. This section of the handbook is

essential reading for anyone who wants to understand the different ways that scholars have thought about the history of international relations.

Part 2: Methods

The second part of the handbook provides an overview of the different methods that scholars use to study historical international relations. These methods include archival research, oral history, and quantitative analysis. The chapter authors provide a detailed explanation of each method, as well as its advantages and disadvantages. This section of the handbook is essential reading for anyone who wants to conduct research in the field of historical international relations.

Part 3: Historiography

The third part of the handbook provides an overview of the historiography of historical international relations. This section covers the different ways that scholars have interpreted the history of international relations. The chapter authors provide a critical analysis of the major historiographical debates, as well as their implications for the future of the field. This section of the handbook is essential reading for anyone who wants to understand the different ways that scholars have thought about the history of international relations.

Part 4: Regions

The fourth part of the handbook provides an overview of the history of international relations in different regions of the world. These regions include Europe, Asia, Africa, the Americas, and the Middle East. The chapter authors provide a detailed analysis of the major events and trends in each region, as well as their implications for the global system. This

section of the handbook is essential reading for anyone who wants to understand the different ways that international relations have played out in different parts of the world.

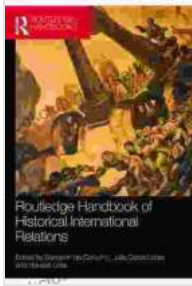

Part 5: Themes

The fifth part of the handbook provides an overview of the major themes in the history of international relations. These themes include war, peace, diplomacy, and globalization. The chapter authors provide a detailed analysis of each theme, as well as its implications for the future of international relations. This section of the handbook is essential reading for anyone who wants to understand the different ways that these themes have shaped the history of international relations.

Part 6: Key Concepts

The sixth part of the handbook provides an overview of the key concepts in the history of international relations. These concepts include power, sovereignty, and legitimacy. The chapter authors provide a detailed explanation of each concept, as well as its implications for the future of international relations. This section of the handbook is essential reading for anyone who wants to understand the different ways that these concepts have shaped the history of international relations.

The Routledge Handbook of Historical International Relations is a valuable resource for students and scholars of international relations, as well as for anyone interested in the history of world affairs. The handbook provides a comprehensive overview of the field, covering a wide range of topics from theory to methods to historiography. The handbook is essential reading for anyone who wants to understand the different ways that scholars have thought about the history of international relations.
